On Holland or other imported bulbs prices shown are F. O. B. New York.

There is no other charge to you than the following list prices. No charge for freight, insurance, duty packing or cases.

All prices in this catalog are subject to change without notice. In view of prevailing conditions due to fluctuating exchange, possible increase in freights and other reasons beyond our control, these prices may change. Our customers will be given the benefit of the lowest price we are able to make.

Domestic bulbs are quoted F. O. B. New York or greenhouses or nurseries at some point from which it may be advantageous to ship to our customers. Each item will be delivered as soon as it arrives.

Terms and Conditions

PRICES

Are made somewhat in advance of the season and are subject to change without notice.

WARRANTY

We do not warrant in any way, expressed or implied, the contents or the description, purity, productiveness or any other matter of any seeds, bulbs or plants sold by us, and we will not be in any way responsible for the crop. If the purchaser does not accept these goods on above terms, no sale is made thereof, and he must return them at once, and money will be refunded. Subject to the above conditions we make this sale at the moderate prices at which we sell our goods. All claims must be made within 5 days after receipt of goods.

CROP SHORTAGES, ETC.

Our merchandise, being growing crops and of perishable nature, are contracted for by us in advance and we book customers orders in advance but must reserve the right to pro-rate orders or advise inability to supply ac-

cording to crop shortages and crop failures and other causes beyond our control. All goods offered are subject to prior sale.

CLAIMS

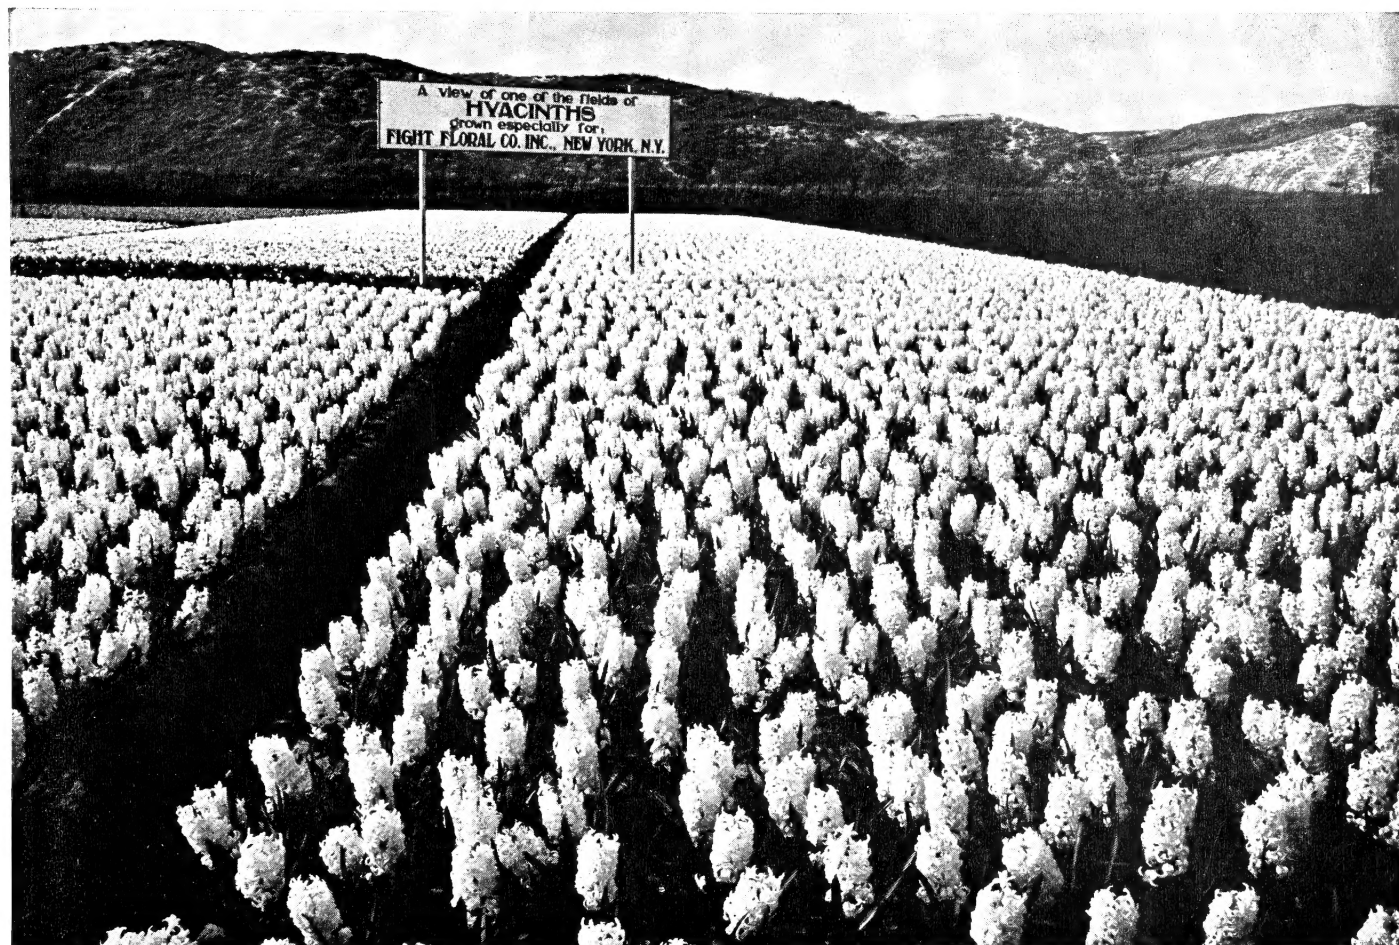

All claims must be made within five days after receipt of goods.

SHIPPING

Please state how you desire shipment made, otherwise we use our best judgment but we are not responsible for safe arrival; according to law, the transportation companies are agents of the buyer; advise us if any damage occurs and we will cooperate with you in helping you to get redress.

CREDIT

To customers having charge accounts, we allow 60 days or the advantage of 2 per cent for cash payment within ten days of invoice date—credit arrangements will be made with new customers, by furnishing us with trade or satisfactory references.

Darwin Tulips

For forcing and cut flower growing this class of TULIPS covers a wide range of colors and can be had in bloom from end of January through to Mother's Day. Darwin TULIPS are suitable for planting in cool greenhouses or sash houses. By planting in such cool houses, a succession of blooms can be arranged that will follow when the earlier Darwin varieties are through cutting.

New Varieties of Darwin Tulips

If crop is favorable, we may supply some of the following newer varieties of Darwins in with our customers' early orders. The supply of these varieties is yet limited. There will be limited quantities to supply on any order of these new varieties. Prices will be in some cases no higher than standard varieties, but in a few instances, they will be higher than standard varieties.

All Bright (Sport of Bartigon). Scarlet color. Excellent.
Campfire (Sport of Bartigon). A trifle darker than All Bright, very good.

Philip Snowden (Sport of Bartigon). The beautiful Rose Bartigon, very excellent.

Tindal (Sport of Bartigon). Dark red, the best improved Bartigon produced.

Prunes (Sport of Bartigon). Beautiful Rose Bartigon. Will become leader of the Rose Bartigon varieties. All these Bartigon sports are good improvements and can be forced the same as Bartigon and be in flower at the same time.

Charles Needham. Deep scarlet. The finest scarlet flower, none better. In flower when forcing February 20th. Strong, height 20 in.

Greuze. A good violet purple Darwin. Forces well and also good for garden.

Mr. Van Zyl. Beautiful soft rose, white edge, large extra.

Pride of Zwanenburg. Salmon rose, small light edge, extra large. There is no better Rose Salmon Darwin which is nicer to force as this variety. Very, very beautiful. Forces excellent to have in flower late February and very good for Easter. We do not know of any Darwin which is better or nicer. Also very beautiful to use for garden use and borders. Height about 24 in. strong.

Niphetos. New excellent variety. Forces well to have in flower end of February. Color beautiful lemon yellow, light inside. Very large, the so-called "Lady Tulip."

Golden Age. A very good forcer for end of February. Color beautiful yellow with tendency to orange edge. Extra.

Utopia. Very striking color of cardinal red. Forces very well to have in flower middle of February. Height 22 in. Strong. Recommended.

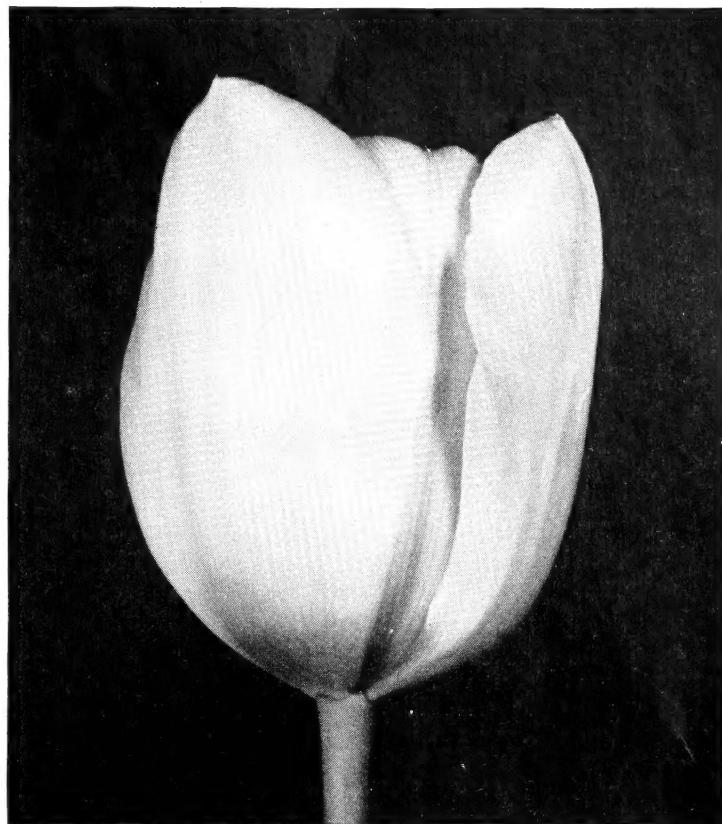

There will be in the future a new Darwin, **Red Pitt**, and at present we are in the position to give each customer a hundred bulbs at \$20.00 per 100 if he would care to include it in his order.

May-Flowering or Cottage Tulip

This class of general flowering Tulips are tall growing varieties that have made "Dutch Bulbs" famous all over the world.

They are generally used for outdoor blooming. There are a few suitable for forcing such as the Albino White and Carrara White. They bloom outdoors during May and about same time as Darwin Tulips. There is a wide range of color in this group. They are valuable for cut flower growing outdoors because of their robust growth and strong substance. The flowers are very lasting both in the garden and when cut.

Single Early

In this class of Tulips are some very fine varieties for forcing for early cut flowers. For outdoors while not possessing the size of flower nor length of stem of the May-flowering Varieties, this group is quite useful for planting in formal beds or wherever early flowers are desired. They also lend themselves very well for flowering in the home during the Winter months.

Triumph Tulip

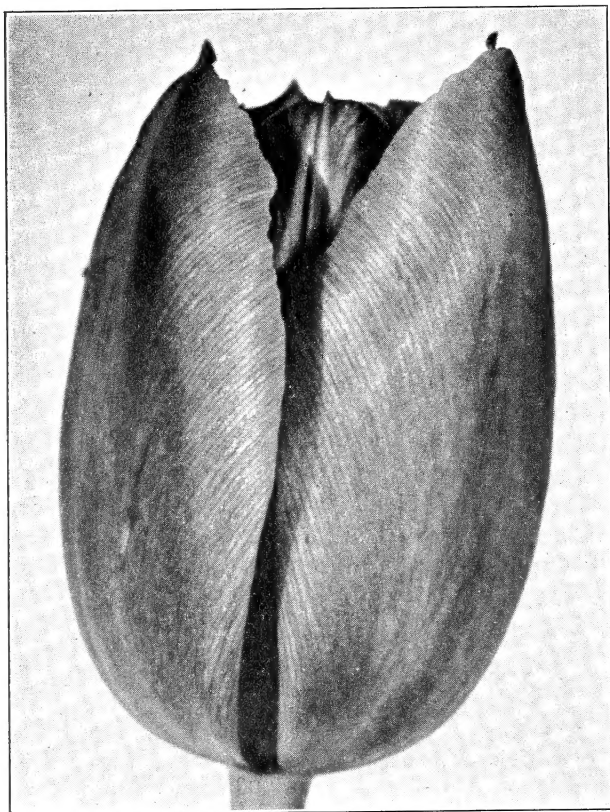

Breeder

While Breeder Tulips bloom during May when Darwin Tulips are in bloom, they are a different class because of their great variation of bronze and mahogany as well as buff colors. Most of the varieties are large flowering and with strong stems making them a lasting sight when in bloom outdoors and for the same reason valuable as cut flowers. Generally used for bedding or outdoors not for forcing.

Lily Bulbs

With several years experience the grower is finding out which of the American grown Lily bulbs are more satisfactory for certain purposes whether for pot plant growing or cut flower growing and also which give better results under one's particular conditions. We list what we consider have given best results for our customers.

LILIUM CROFT

READY FALL

The best American grown Lily for pot plants. 7-9 size produces three or more flowers per plant and is the most useful. Start at 60 degrees in November and continue at same temperature. Bulbs held in storage for any length show reduction in bud count.

6 inch (300 in case).....	} Prices not yet established
7 inch (250 in case).....	
8 inch (200 in case).....	
9-10 inch (150 in case).....	

We may also have baby cases of 100 each in the above sizes.

LILIUM ESTATE

READY FALL

Good for pot plants but slower in forcing than the Croft. Sizes, packing and prices are usually the same as for Croft.

LILIUM CREOLE

Excellent for cut flowers. Usually too tall for pot plants. Grow at 50-55 degrees. Do not crowd. Allow full light. Our strain of this Lily has given very satisfactory results for our customers for many years.

Cultural Information

Should you have any problems pertaining to growing or culture of any particular crop please feel free to write us. We will do our best to give you what information we can to help you. This is one service we are glad to extend to our customers.

Do you read "Barney Bonemeal" and what he has to say each month in our "Greenhouse Gossip"? If you are not on our mailing list drop us a line.
